

JS2024 : 5th Jagiellonian Symposium on Advances in Particle Physics and Medicine

Contribution ID: 602

Type: **not specified**

Invited talk: The glycosylation status of melanoma cells directly affects the proteome composition of extracellular vesicles they release

Thursday, 4 July 2024 11:35 (25 minutes)

Presenter: Prof. PRZYBYŁO, Małgorzata (Jagiellonian University in Krakow)

Session Classification: EXTRACELLULAR VESICLES FOR THERANOSTICS
