

JS2024 : 5th Jagiellonian Symposium on Advances in Particle Physics and Medicine

Monday 01 July 2024

POSITRONIUM IN FUNDAMENTAL AND MATERIAL PHYSICS (14:30-15:45)

time	[id] title	presenter
14:30	[546] Invited talk: New bunched positron beam at the AntiMatter Laboratory in Trento: planned quantum experiments with positronium	Prof. BRUSA, Roberto Sennen
14:55	[547] Invited talk: Study of the mechanism of positronium formation on solid surfaces	Prof. CIZEK, Jakub
15:20	[548] Invited talk: Doppler cooling of positronium with a broadband laser pulse	Dr GLÖGGLER, Lisa
