

JS2024 : 5th Jagiellonian Symposium on Advances in Particle Physics and Medicine

Saturday 06 July 2024

EXOTIC ATOMS AND NUCLEI, NUCLEAR PHYSICS (10:50-12:30)

time	[id] title	presenter
10:50	[587] Invited talk: Formation of long lived nuclear molecules in (p, 2He) nuclear reactions on ^{181}Ta and ^{159}Tb	Prof. KADENKO, Ihor
11:15	[588] Invited talk: Spectroscopy of antiprotonic atoms	Prof. SOWIŃSKI, Tomasz
11:40	[589] Invited talk: Structure of Λ Xi hypernuclei	Prof. HIYAMA, Emiko
12:05	[590] Invited talk: The eta-deuteron interaction studied in coherent neutral-pion and eta-meson photoproduction on the deuteron	Prof. ISHIKAWA, Takatsugu
