

JS2024 : 5th Jagiellonian Symposium on Advances in Particle Physics and Medicine

Saturday 06 July 2024

MEDICAL IMAGING INNOVATIONS (15:15-16:35)

time	[id] title	presenter
15:15	[593] Key talk: Uncovering Novel Treatment Strategies to Combat Life-Threatening Infections with Multimodal Imaging	Prof. VANDE VELDE, Greetje
15:45	[595] Invited talk: Superparamagnetic nanoparticles – a versatile platform for imaging and theranostic innovations	Prof. KUNCIC, Zdenka
16:10	[598] Invited talk: Recent Advances in Hyperpolarized Xenon-129 Molecular Imaging: Are We Close for a Practical Application?	Prof. ALBERT, Mitchell
